Hot off the Griddle

By EMILE GAUVREAU

A NEW YORK BASEBALL POOL gambler discovers that his combination of teams has scored the most runs for the week, which entitles him to a lottery prize of \$20,000 on an investment of \$5 or \$6. The baseball lottery operators announce that some one else has won, and the man who thought the pool was honest, and who will never get his \$20,000, makes the crooked deal public. The Federal authorities will do the rest. Hundreds of thousands of dollars have been collected in the swindle in many parts of the country. But men will gamble, never giving a moment's thought to the truth that you cannot get something for nothing in this life, especially when you are counting on crooks to play fair. Don't gamble.

THOSE OF US WHO READ the bloody details of the Tunney-Henry fight may miss a small news item from South America. Bolivia announces that it has abolished the bull fight, deciding that its colorful slaughterings are not educational. Mr. Tunney, who reads Raton and Shakespeare for culture and who sleek his opponent's face until the blood drips, would probably call a bull fight very distressing. All who saw Tunney win will agree that gory bull fighting arouses the animal instincts of the Bolivian pansy.

A YOUNG WOMAN FROM NEW YORK, traveling in Colorado, is thrown from an automobile by two strangers with whom she was riding, and at the hospital, where she is taken, she gives birth to a daughter. Young women about to become mothers should not ride in automobiles with strange men. By doing so they set a very bad example for flappers who hope some day to become mothers under happier circumstances.

MME. NOGUCHI, WIDOW OF Dr. Hideyo Noguchi, renowned scientist who lost his life in the course of yellow fever research, will receive a generous annuity for life from the Rockefeller Institute for Medical Research. The famous doctor who devoted his life to science left only \$12,000. The Rockefeller fortune could not be used for a better purpose. Great men in public service care little for money. If their survivors are provided for, it will be an incentive for others to emulate them.

THE UNITED STATES IS MOVING to recognize the Nationalist government of China. All the new China has to do to demonstrate that it can discharge its obligations under international law. When Sun Yat Sen, the George Washington of China, started to free his country from the domination of the war lords and foreign governments, Secretary Hughes, then in the American cabinet, turned down his appeal for recognition. Sun Yat Sen is dead but his spirit goes marching on. If the war lords had won the "Nationalist government" would have been in a class with Sandoz, who is called a bandit by Secretary Kellogg. The forces of righteousness are generally to be found on the side which has the heaviest artillery.

Husband and Wife

My husband always loads up our car with the fellows at the office who live on our route home; then gets peevish at me if I stay down town late enough to ride home with him because that causes some of the lunks to take street cars.

RICHMOND MAN IS KNIFED BY "SLASHER"

POLISH SHIP IS WINGING OVER OCEAN

PARIS, Aug. 3.—(U.P.)—The Polish fliers, Major Ipiakowski and Casimir Kubala left here at 5:45 a. m. on a transatlantic flight. The two fliers had been waiting for good weather, but it was somewhat of a surprise when they took off. Their plane was loaded with 1500 gallons of gasoline and rolled heavily down the runway for 900 yards before lifting in the air. The takeoff was made from Le Bourget field where the aviators had been waiting for word from the weather department. They had loaded their craft Thursday night and said they would take off only if conditions were reported good on their route. They took 40 kilograms of food stuffs including champagne and rum. They also carried a sack of letters on their plane. It was believed their destination was New York as previously announced but it had not been learned whether they had changed their plans.

Ipiakowski, who is 36 years old and Kabala, who is 38, both served in the Polish military aviation corps. The former got his pilot license in 1915 and Kubala joined a year later. Ipiakowski had a notable career in the war, being successful on a number of bombing expeditions. The two aviators have made a number of long flights separately and about a year ago they decided to try their luck as team mates.

The government supported their idea for an ocean flight and the minister of war provided for the expense of a plane. It was decided that the flight would be from Paris to New York and so far as known no change in plans has been made.

Their plane which had not been equipped with a radio, was taken to France and final trials were made at Berry near Marseilles. Then the craft was moved to this field where the motor was tested. Wind currents were studied and other preparations were made.

The takeoff today was a surprise, although the Poles had said they would go with the first favorable report from the weather bureau. When last sighted the plane was flying steadily but low.

French Ace To Hop Sea

WASHINGTON, Aug. 2.—(U.P.)—Diebomme Costen, noted French aviator, will start from Paris on an attempted non-stop flight to Philadelphia before Saturday, Carl F. Seberry, secretary of the National Aeronautical association contest committee, was advised today.

Costen must start before midnight August 4, as the \$25,000 prize offered for the first non-stop flight from Europe to Philadelphia expires at that time.

COMPULSORY SAVING

LIMA, Peru, Aug. 00.—(U.P.)—All Peruvian soldiers are required by a new decree of the War Ministry to maintain a savings account, in which each puts \$50, the equivalent of 20 cents U. S. currency, weekly. This is one fifth of their pay.

Cadets must deposit one half this amount. All money saved is turned over to the soldier when he quits the service.

BUILDING PERMIT

Mrs. William Diedhoff yesterday was granted a building permit for the construction of a sun porch on a dwelling in Tenth street between Pennsylvania and Lucas avenues, at an estimated cost of \$15.

They're Both Blooming Lovely

AT ECHO LAKE, Los Angeles, the largest lotus lily bed in the United States is in bloom. Miss Marie Bertrand is shown with one of the fragrant flowers which are the same as those that grow along the river Nile.

LARGE DAVIS VOTE IS SEEN

Reports reaching the headquarters of Louis E. Davis, candidate for State Senator, indicate that he will poll a large vote in Martinez and Antioch. At the county seat, where Sharkey has lived for many years and where he edits a newspaper, there is well organized opposition to him.

In the election four years ago when Henry A. Johnston, of Richmond, was running for the office, the incumbent had much to worry him at Martinez. And it is said that the record he made in 1927 has weakened him materially throughout the northern end of the county.

With all his well-oiled machinery, and the prestige that ought to go with eight years in the Senate, Sharkey was given a close race. Sharkey won only by 18 votes in the two counties. Louis Davis, young and fit always, is making hosts of friends by his genial manner. Some of his staunchest supporters are found right at Martinez.

San Joaquin Power Company In Profit

FRESNO, Aug. 2.—(U.P.)—Net income for dividends of the San Joaquin Light and Power company during the 12 months ending June 30, totaled \$2,871,665.11 an increase of more than \$725,000 over the preceding year, the annual report said tonight. The gross operating revenue for the recent year was \$9,667,306.17 and the total net income was \$5,917,306.43.

DANCE HALL AT ROMAGNE

PARIS, Aug. 2.—(U.P.)—Americans returning from the battlefields complained to the American Embassy today that a tactless cafe keeper has opened a noisy dance hall just opposite the gates of the Romagne cemetery, near Verdun, where 14,000 Americans are buried.

The tourists declared to Embassy officials that the soil should be considered as sacred and urged that the U. S. government buy the land surrounding the war cemeteries in Europe to prevent such desecration.

NEW ZEALAND PAIR WILL VISIT HERE

Mr. and Mrs. F. B. Lewis of Hokitika, New Zealand, will arrive in San Francisco this morning on a visit to Lewis' mother, Mrs. Mary Lewis of 226 Twenty-first street. He is a brother of Mrs. L. W. Norcott of 411 Thirteenth street. They expect to remain in Richmond one month before returning to their home.

MRS HANNEY TESTIFIES

Mrs. Eleanor Hanney took the witness stand yesterday during her trial on charges of maintaining a common nuisance in her Richmond home, which grew out of a raid staged here by county operatives recently.

The morning session of the trial being heard before Judge A. B. McKenzie, produced damaging evidence against Mrs. Hanney when Leo Crowley and Robert C. Find, prohibition operatives, testified sales of liquor were made to them. Crowley has claimed that some of the children of Mrs. Hanney, mother of eight, were present at the time the liquor was served. This allegation has been made a basis of a second charge, that of contributing to the delinquency of minor children, in a complaint filed against Mrs. Hanney by Crowley.

The case is being prosecuted by Deputy District Attorney Hiram Jacobs, with Attorney Tsar Calfee appearing as counsel for Mrs. Hanney.

Woman Kills S. F. Musician, Suicides

SAN FRANCISCO, Aug. 2.—(U.P.)—Mrs. Maryland Whalen, 35, shot and killed Eddie Roth, 23, orchestra leader here today and then committed suicide. The woman had telephoned Roth to hurry to her apartment and when he arrived a violent quarrel preceded the shooting.

NOT SO LUCKY

POTTSTOWN, Pa., Aug. 2.—(U.P.)—A "good luck" omen cost Joseph Guardiani \$12.50. An agent of the Society for the Prevention of Cruelty to Animals saw that the horse driven by Guardiani was limping and investigation revealed the animal wore only three shoes.

The fourth shoe was found hanging in Guardiani's home. A hearing and fine followed.

EXTRA DRUMSTICKS

GENEVA, N. Y., Aug. 2.—(U.P.)—A four-legged Plymouth Rock chick is numbered among a batch recently hatched by a hen owned by Rocco Grosso. The chick has an extra pair of legs projecting from the back. The extra members do not appear to be used in locomotion. Otherwise the chick is normal.

TODAY'S CHUCKLE

SIOUX CITY, Ia., Aug. 2.—(U.P.)—Robert Barr will never grow wealthy winning dandelion digging prizes. He dug 4,506 pounds to capture first prize of \$3.50.

Mystery Killing Bared

NUDE BODY OF WOMAN FOUND AT HOLLYWOOD

HOLLYWOOD, Aug. 2.—(U.P.)—The mutilated, nude body of a woman was found tonight in a canyon at the outskirts of the city.

A bullet had pierced the right temple and police found a cartridge shell 100 feet from the body.

A white gold wedding ring and a string of beads furnished the principal hope of identification of the woman.

Her scalp, covered with closely cut blonde hair had been severed and the body otherwise butchered.

Search of the ranges about the canyon failed to disclose any clothing she might have worn.

The body had been in the canyon about 30 days but despite its condition police established the woman's age as about 30.

It was believed she had been a woman accustomed to leisure.

Police tonight probed the murder for a connection with the killing of John I. Glab, millionaire liquor racketeer. The body was said to correspond with descriptions of the mysterious "woman in white" who was seen fleeing from the Glab car shortly after the murder.

World Flight Is Abandoned

SEVILLA, Spain, Aug. 2.—(U.P.)—Commander Ramon Franco, Spanish aviator, has abandoned all plans for his proposed flight around the world in 45 days, he announced today.

Franco, who landed at Port of Huelva Wednesday, due to engine trouble after taking off from Cádiz with his three companions on the first leg of his flight, said his plane was so badly damaged that the time necessary to repair it and put the motors in condition would make it too late for favorable weather conditions for the flight this year.

An examination of the plane today showed that one of the pontoons was badly damaged. The plane is being towed to Cádiz.

Washington Man To Speak Here

Under the auspices of the Flying Squadron foundation, Dr. Edwin C. Dinwiddie of Washington, D. C. will speak in the interest of law enforcement and better government in the First Baptist church tonight.

Dr. Dinwiddie for 28 years has been legislative superintendent in representing the dry forces in Washington and is also head of the Good Templar order in the United States. At the International Anti-Alcoholic Congress held in Washington in 1920 he was chosen president.

The meeting tonight will be open to the public.

AT 86 HE EMBROIDERS

PON DU LAC, Wis., Aug. 2.—(U.P.)—If you want to live long, keep busy, is the advice of Delos Hatch, who has just passed his 86th birthday. Since the death of his wife nine years ago, Hatch has practiced doing embroidery work. He has embroidered more than 400 pieces, including doilies, lunch cloths and bedspreads. He does his work in colors.

FOX APPEAL IS REFUSED

SAN FRANCISCO, Aug. 2.—(U.P.)—William Edward Hickman, youthful slayer of Marion Parker, Los Angeles school girl, will mount the 10 steps of the gallows of San Quentin prison between October 5 and November 5 unless the United States Supreme Court agrees to consider his case.

The State Supreme Court here today denied a petition for rehearing of his appeal recently denied by that tribunal. Under procedure of the state the Supreme Court of Los Angeles county will be notified of the latest ruling in three days and Hickman will be resentence to hang on a date within 60 to 90 days from then.

It was considered probable, however, that attempts of Hickman's attorneys to carry the fight to the United States Supreme Court would again delay execution of the sentence.

MORALE: THROW MUD

HASKELL, Tex., Aug. 2.—(U.P.)—Five years ago, Rex DeSpain of Dallas, who lived in Dallas at that time, visited T. A. Pinkerton here while in swimming lost a signet ring with his initials on it. He entertained no hopes of ever finding it.

DeSpain, who now lives in Abilene, was a guest of Pinkerton last week. Again, while in swimming DeSpain was enjoying a mud fight with several boys when he picked up a handful of mud in two feet of water near the bank and felt some hard substance. On examination he found it to be the lost ring.

JUST CAN'T STAY HOME

ST. LOUIS, Mo., Aug. 2.—(U.P.)—Joseph Smith, 53, who returned home four months ago after he had been missing a year and a body identified as his had been taken from the Mississippi river is missing again.

He left his home telling his wife he was going to Maplewood and has not been seen since.

"RETURN" TO LIFE

CHICO, Cal., Aug. 2.—While her heart was stilled for five minutes during an operation for cancer of the brain, Mrs. I. S. Well of Chico, said she experienced the departure of her soul from her body, and firmly believes she has returned from the dead.

SUSPECT IS HUNTED BY BAY POLICE

Stirred by two mysterious stabbings when a Richmond man and a San Francisco man were victims of the "slasher" in the transbay city Wednesday night, police of the bay district have launched an intensive search for suspects.

Four Oakland persons also were victims of the "slasher", all dodging knives hurling from a possible automobile, except a lad who was struck and wounded by a knife.

Vernon Forest, Travelers hotel, Richmond, sought treatment in a San Francisco drug store Wednesday evening and was found to have knife wounds on the left chest and back. He was taken to a hospital emergency hospital and after treatment was able to return to Richmond.

Forest told San Francisco police the someone he slashed him with a knife while he was standing.

River Search Is Abandoned

PITTSBURGH, Aug. 2.—Failing of recovery of any object, Chief of Police Charles Scudero after dragging the San Joaquin river for two hours this morning announced that he would make no further investigation of a report by two industrial workers that they had seen a man hurl into the stream early yesterday morning what they believed was the body of a girl about seven years of age.

Scudero, although dubious from the outset, dragged the river to establish beyond doubt that a crime had not been committed.

L. R. Reed and F. D. Tomason en route to work at 2 a. m., reported they saw a man carrying in a blanket what they thought was the body of a child. When they witnessed the man go to the river's edge and come back empty handed, they sought to question him but he fled.

Police thought the man might have disposed of a dog.

Services Held For Mrs. Schram

Funeral services were held from the Wilson and Kratzer chapel yesterday afternoon for Mrs. Florence Lenora Schram, Richmond pioneer and clubwoman, who died last Saturday. Following the services, the remains were shipped to Glendale where they will be taken place. A son and daughter-in-law of the deceased, Mr. and Mrs. George E. Schram, accompanied the body.

Deceased was the widow of the late Fred C. Schram, noted Richmond realtor, and was active in club and social life of the city for the past 22 years. She was a native of Iowa. In addition to the above, she is survived by Mr. and Mrs. Joseph E. Schram and niece, Dr. Dorothy Enloe of Chico.

OFFICERS VACATION

Inspector Oliver Wylie, and Patrolmen Frank Fray and T. D. Floyd are members of the Richmond police department now enjoying vacations of two weeks.

MOTHER SUCCEEDS

Harry Barris, driver for the Richmond Soda Works, has been called to Sacramento by the death of his mother.

FRIDAY MORNING, AUG. 3, 1928.

THE TROUBLE WITH MEXICO

South of the border people have never had it ground into their minds that a republic is essentially an organization which abides by the will of its majorities. All of the machinery of government designed for republics is so built that it will give full expression to the majority wishes and at the same time prevent the over-riding of rights of the minority. The great safeguard is the constitution.

In Mexico it is not customary to shut up after one has had one's say and accept in a true sportsmanlike manner the rule of the victor. Perhaps this is because the beaten side can't ever concede the victory as fairly won. But our advice to Mexico would be to give the mechanism of the republic a fair chance to show what it can do.

Indeed this is the age of service. The hotels advertise road-house dinners and the road houses assure the customer that he is getting as good a meal as he gets at a hotel.

The rich get everything. You'll notice there was little effort to improve the jails until the upper class began to use them occasionally.

Parents can hasten a match by pretending to oppose it—though, of course, they must be tactful and not seem to be prying into the affairs of their superiors.

The city man pays most of the income tax? Well the only fellow who can furnish the cream is the one who milks the cow.

Man is superior, of course, but you never see the beasts adding to the complexities of life by all trying to park in the same place.

Aviators it is said can now play golf up in the sky and we suppose the holes are furnished by the air pockets.

THEN AND NOW

SIXTY YEARS AGO TODAY

LITTLE DOTTY in her polka dots was the smart thing for morning wear years ago. A balloon-like dress indeed in her morning wear with blue dots border which conveyed that she might be standing on her feet for hours and yards of material to make a dress for the good old days.

TODAY

UNHAMPERED and happily free and breezy is the Miss of today in a little dress of voile in blue and white, in the prevailing mode of polka dots, a tailored white flower on one shoulder and a wide leather belt. A cool and smart bit of femininity ready for the most critical eyes and passing muster the demands of today's morning or afternoon wear. The moods change with years but the polka dots seem to go on forever.

Julie Says—

"For the love of Jupiter Pluvius!" exclaimed Jack as he caught up with Betty. "What do you mean by sauntering along in that lovely silk coat in this downpour without an umbrella? Let me call a taxi before you ruin it."

"Don't be a goose, Jack," she replied. "This is my new raincoat and it sheds water as well as the well-known waddling bird. It's a duck of a coat, too. It's made of rain-proof crepe de chene in a plaid design with a hat to match. Don't you think its color is a bright spot on a dismal rainy day?"

Jack looked her over with a new and approving interest. No wonder she was strolling along so comfortably unconcerned. Her collar fitted snugly about the neck and could be turned into a rolled effect. And it had double pockets, two on each side.

BEAUTY

By LAURA LANE

Fad-following is always silly and sometimes it can be dangerous. We refer of course, to the fads in beauty culture followed enthusiastically by so many women.

When a new product appears on the market or a new treatment is discovered it is only common sense to wait until its value has been proven before you rush off and try it, sometimes at considerable expense. Just because your favorite actress indoors is a face cream doesn't necessarily mean that that particular cream will benefit your skin or even agree with it. If you have found creams and cosmetics that are still better and that you like, you are in good condition; he means stick to them, no matter how attractive the fads and fashions of the new product are.

It is surprising and not very encouraging to note the number of women who will purchase any cosmetic suggested by a popular woman. She can hardly know the peculiarities and needs of your skin as well as you do yourself. If you have made an intelligent study of your complexion and just because one of your best friends uses Whosit's skin cream, you have found satisfaction, is certainly not an adequate reason for you to change to Whosit's, which may not be fitted to you at all.

The woman who has her own jars and boxes for creams and powders, into which she puts these products when she does not buy her cosmetics and facial aids for their outer covering. After all, you should buy them to decorate your face, not your dressing table.

Don't follow every new wrinkle in beauty culture like a lot of sheep. Find those things which agree with your skin and then stick to them until the value of something more efficient has been proven.

That fellow who is trying to make a circuit of the world in twenty-three days may return home to find twenty-three milk bottles and twenty-three newspapers on the front porch.

Diego did other things besides help to make tiles. He helped his father make the mahogany and cedar benches. He helped to stretch the hide across the frame of the most comfortable chair. It was because the bright-leaved mahogany trees grew in nearby forests that this home had many furniture.

The 'dobe house of Carmen and Diego was set like the heart of a cabbage, in a vegetable garden. The home was the heart. And spreading out from the home could be seen the sugar-cane, the coconut, the mango, the papaya, the avocado, the oranges, the tamarindo—growing, growing! They grew for food, for these dark-skinned dwellers of the Canal Zone. They were oh, so good to eat!

A Dainty Voile

Light and airy, and enchantingly interpreting the "feeling for motion" in the mode, this Paris success is carried out in figured voile. The bloused bodice is gathered at the shoulders, the back being brought over to the front to form a yoke. Self-material is used for the skirt, and the frills on the skirt are scalloped. Medium size requires 4 1/2 yards 36-inch voile.

Gets Windfall Upon Death Of Errant Spouse

TAYLORVILLE, Ill., Aug. 2.—(U.P.)—For exactly 31 years Mrs. Ida Hendricks has washed other people's clothes and done other hard work to raise her four children and send them through high school.

Thirty-one years ago her husband John Hendricks, left his wife and babies to go to Alaska during the boom days of the gold rush. He kissed his family goodbye, stopped at a clothing store and bought a cap and was never seen again.

His wife received one letter from Alaska, another from Washington—that was all. After years had passed she came to believe him dead and turned her attention to raising their family.

Today Mrs. Hendricks and her four children have \$10,000.

A crossing watchman, known only as Hendricks, died in Oklahoma City last January and \$10,000 was found hidden in his six-by-eight shack along the railroad track.

A diligent and persevering attorney learned that the watchman had spoken once of a brother in Taylorville, Ill. He came here and found Mrs. Hendricks and her family after interviewing 99 other residents.

She identified a picture of her

It is not known whether John Hendricks found gold in Alaska or whether the small fortune was obtained in a later adventure.

Now, therefore, I give notice that I will on the 24th day of August, 1928, at the hour of 10 o'clock a. m., said day, sell at public auction the lot or parcel of land mentioned in said bond.

So much thereof as may be necessary at the office of the City Treasurer, 311 Tenth Street, Richmond, California, unless the amount due on said bond and the accrued interest thereon together with the cost of the publication of this notice are paid; and that I will sell the same to the person who will take the least amount of said lot or parcel of land and pay the full amount of unpaid principal and interest on said bond, together with cost of publication.

The lot or parcel of land mentioned in said bond, and to be sold, is more particularly described to-wit: Lot No. 1 Block No. 14, as delineated and designated upon that certain map entitled "Map of Resurvey of Richmond Boulevard Tract" filed in the office of the Recorder of Contra Costa County, State of California, on the 26th day of January, 1906; said property is situated in the City of Richmond, County of Contra Costa, State of California.

The amount due on said bond up to the date of this notice is as follows:

Due on the Principal thereof Thirty-eight and 01/100 Dollars.
Due on account of interest Thirty-two and 14/100 Dollars.

Total amount due on said bond Seventy and 15/100 Dollars.
In order to avoid the sale, payment of the total amount above named will be required together with the cost of publication made before such payment and the additional interest accruing up to the date of payment.

In the event of sale, such sale will include interest in addition to the above total amount due accruing up to date of sale, the cost of publication of notice of sale, and one dollar for the issuing of certificate of sale.

The Recorder-Herald is designated as the newspaper in which this notice shall be published.

I, R. VAUGHN, Treasurer of the City, of Richmond,

"Would Rather Practice Than Eat", Says New Boy

ARNOLD JOHNSON

Evening breeze—Seems to say—Time to be—on your way—Down where the sun goes down

Astonishing Change Due to Modern Music, Says Leader

New York City.—It is no job these days to get Jack in off his roller skates to practice his piano lessons.

"The whole attitude of children toward music has changed," declares Arnold Johnson, famous orchestra director. "In the old days music lessons and practice were something unreasonable the grown-ups insisted upon just as they demanded washing behind the ears. The child simply didn't understand music—it was an unhappy interruption of his precious hours of play."

"Modern music has changed all this. It is so much a part of our every day life that the child understands it. It speaks in a language he knows. The modern rhythm is real United States. The French and the German and the Italian themes of old days were

as hard for the childish mind to grasp as were the languages of those countries.

Music Joyous

"Then, too, most of our music is joyous and children are closer to happiness than they are to gloom. Melody appeals to all children, and there is no such thing as a modern American song without a melody. I know that if there had been a piece of the type of 'Down Where the Sun Goes Down', when I was learning music, I would have been saved many spankings. Technically, it is beautifully written. The harmonies are as fine as any 'old timer', yet it has the foxtrot rhythm that gets you."

"I have observed a small relative of mine learning this. I have also seen him working over a generation-ago sonata. One is work and one is pleasure. That is the child's attitude, and apparently the attitude of all America, because where ten musicians grew before, we now have one thousand."

HAINES PLAYS REPORTER IN PICTURE HERE

A new William Haines. That is what the audience at the California Theatre decided yesterday when they saw the opening performance of William Haines' starring picture, "Telling the World."

Haines, who heretofore has established himself as a wise-cracking athlete who always learns better in the next to the last reel, has brought to the screen in his new production an entirely different type of character.

Traces of the wise-cracker are still there, but the character has softened and strengthened. As the newspaper reporter who doesn't recognize love until he has almost lost it, Haines is more human and admirable than ever before in his starring career.

Not that "Telling the World" isn't funny. It is. Probably the funniest of all the many productions Haines has contributed to make the heart of humanity lighter. The picture has everything: humor, pathos, drama and a smashing punch at the finish that had the audience on their feet as the battle planes of the U. S. Marine Corps swooped low over the square to rescue the girl from Chinese bandits.

Haines is more entertaining than ever. The report that his acting is almost entirely extemporaneous must be true. No one could possibly be so funny in cold blood. Sam Wood, the director, and his star are a happy combination, for their dual effort moves at a high tempo from start to finish; a tempo that has the audience roaring with laughter while still going to keep back the tears.

Anita Page, who makes her first appearance on the screen as Haines' leading lady, looks like the best picture bet that has appeared on the screen in many and many a month. Miss Page has a personality that is entirely her own and a beauty that is like no other on the silver screen. She gives a performance so perfect it is difficult to realize that this is her first appearance.

The remainder of the cast, Eileen Percy, Polly Moran, Frank Currier, Bert Roach, Mathew Betz and William V. Mong are excellent in their roles.

Lloyd Hamilton in "New Wrinkles" a decidedly funny comedy, "Conquering the Colorado" and the latest issue of the International News rounded out the well balanced program.

School nurse says all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said:

"One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping."

Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless. In a word, it's easy. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine.

UTILITY WATER COMPANY BUYS LAND FOR DAM

NAPA, Aug. 2.—Although twice it has been announced that the project has been abandoned, Utility and Service, Inc., today had concluded negotiations for purchase of 1200 acres of land at a site in Conn Valley, near St. Helena, for a dam to impound water. It is intended to pipe to Contra Costa county to serve to industries.

Acquisition of the land, secured from Walter D. Brown, gives the corporation control of virtually the entire Conn Creek basin and supplies proof that it intends to fight for the privilege of developing the water source.

Residents of Napa county have contended that the water should be used for local development and in view of the protests the board of supervisors has refused thus far to grant the utility a permit for construction of the dam. Solano county has also failed thus far to grant the concern pipe line rights of way.

SIXTY YEARS AGO

Look ye gently on this masterpiece of rather headpiece and powder! Surely grandma had to get up early in the morning sixty years ago unless she dressed her hair once a week like the Chinese and had the secret of making it "stay put." The one half of the front hair is crimped and rolled over a thick roll. The other forms one large and two small curls. The latter falls behind the ear. The back hair is made into a chignon as grandma what it is—she'll tell you.

TODAY

And now you moderns who are letting your hair grow also have your problems. Here are a few points which may help. Dress the hair as usual and pin the growing hair at the back into small curls. A comb at each side is sometimes a great help. And if long enough tie at the base of the neck and curl up the ends which will give the effect of a considerable size. Sounds difficult but in contrast to sixty years ago is far more simple.

WHETHER or not it is true that eighty per cent of all persons over sixty-five are dependent on relatives or charity for support, the fact remains that destitution among the aged is distressingly common. To what extent this sorry condition can be relieved is largely a question for individual solution. A systematic savings plan, begun in time, will make age free from want and privation. An American Trust Company savings account, earning four per cent interest, compounded semi-annually, is an important step toward financial independence in the declining years.

ing at the corner of Third and Howard streets, San Francisco. Shortly before Forest applied for treatment, Frank Darcy, 170 Third street, San Francisco, was treated for a knife wound in the left chest. Darcy told police he was standing at the corner of Third and Stevenson streets when a man approached him and cut him with a knife before he could defend himself. The victim fled to a drug store for treatment and then was taken to Harbor emergency hospital.

Before the San Francisco stablings, it was reported in Oakland that knives had been hurled at four persons.

It is understood that police are working on the theory that one or two men are responsible for all six attacks. None of the victims were able to furnish good descriptions of the assailant.

LONDON SETS NOTED POLICE FORCE ACTION

LONDON, Aug. 2.—(U.P.)—The London police recently emerged from the secrecy of Scotland Yard into the publicity of the witness stand. Londoners relished the opportunity to look behind the scenes and find out how the "Yard" organization works.

A detective produced the little book that looks so mysterious and ominous to anyone queried by an office—a detective's diary—and read it out before the court. The tables were turned, and the court spectators enjoyed it.

The publicity given the Metropolitan police came in what was popularly known as the Savidge case, and was the sequel to the arrest of Miss Irene Savidge and Sir Lee Money in Hyde Park on a charge of improper conduct. After the defendants had been cleared of the charge and the costs of the case returned against the police, Miss Savidge was called to Scotland Yard for questioning. Charges of alleged third-degree methods brought on a general investigation of police tactics.

Diaries Kept Seven Years
It was revealed that the diary of a London detective is kept by the Divisional Detective Inspector for seven years. A detective usually begins the day by writing a report, either from his diary or from memory, of what he did the day before. A copy of the report goes to the inspector and is put on file, where it is preserved for seven years. If the officer is away from his headquarters or too busy to make a daily report, the report is made at the end of the week, and sends London discovered during the

Chang Tso Lin Given Burial In Native Village

MUKDEN, Manchuria, Aug. 2.—(U.P.)—Chang Tso Lin will be laid to rest tomorrow in an impressive tomb in his native village of Kao-shan-tze.

A small group of mourners, including the wives and children of the once powerful dictator, will attend the coffin to the mausoleum. The body was shipped from Mukden to Kao-shan-tze tonight, after impressive last funeral services in the capital.

Wierd rites, including the cries of professional mourners, featured the last funeral rites. The body previously had laid in state in the bed room of Chang's fifth wife in the late generalissimo's castle in the walled city of Mukden. The castle, really a rather awkward looking three-story foreign building, had been crowded for more than a month ever since the general's death was announced on June 21. The train on which he was riding from Peking was mysteriously bombed.

Mourners also crowded throughout the month to the Temple of Supinkai in the Walled City and heard priests chant the poems of praise to the dead ruler who came near realizing his ambition to be supreme master of all China. Those who saw the body in Chang's mansion were admitted past a huge mourning tower reared in front of the building and conducted to the death chamber where the body of the Little Dictator laid in a huge coffin, resting on a dias. The coffin was covered with a piece of white damask silk. A large altar loaded with tributes to the dead man stood in front of it. Chang Hsueh-liang, the dead man's eldest son, and the first and last widows of the late ruler received the condolences.

Flags throughout Fengtien Province, which have been flying at half mast since the death of the ruler was announced, probably will be restored to the top of the poles Saturday.

In the report with his expense account.

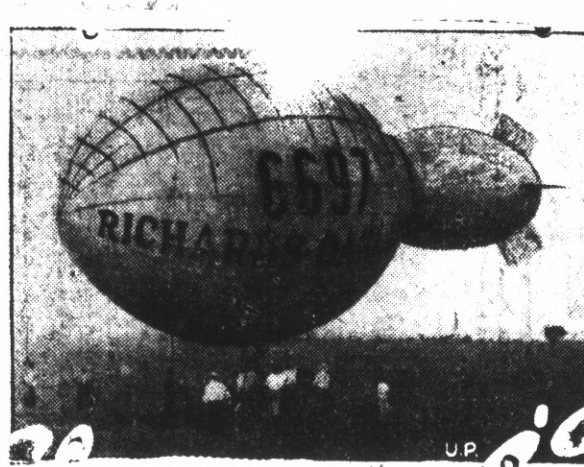

A volume known as the "Occurrence Book" tells the tale of what goes on at the police station. Every item with which the police are concerned is entered in the book. Entries from patrolmen's notebooks are kept here, after they have first been reviewed by the sergeant.

Expenses Curtailed

The Hyde Park patrol, which was responsible for the arrest of Miss Savidge and Sir Lee Money, is part of the regular plain-clothes detail, and the greatest care is taken in selecting the men for this type of work. Although they are usually officers of long experience, their only extra remuneration is a plain-clothes allowance of five shillings (\$1.25) weekly. Plain-clothes men are selected from each sub-division and detailed to special work for one month at a time. Regular detectives receive five shilling a week more than regular constables or policemen, in addition to the plain-clothes allowance. A detective's expenses may not normally exceed twelve shillings (\$3.00) weekly. Traffic officers receive no extra remuneration.

The Electric Range gives beauty, cleanliness and perfect baking to women who love modern methods.

That is the reason why 1542 of our customers installed Electric Ranges in their homes from May 1st to June 23rd.

The Electric Range has white porcelain enamel that makes kitchens attractive. It bakes per-

fectly. And it does it automatically. The oven heats up to 400 degrees in 9 to 11 minutes—as fast as one can mix biscuits. The open coil cooking elements are now made smaller to fit your pans. Heat that was formerly wasted goes to work. Food cooks faster—less electricity is used.

OPPOSITION TO REROUTE ROAD GROWS

MARTINEZ, Aug. 2.—Declaring that the proposed change will materially affect the value of the San Mateo-Hayward bridge and the half million dollar road improvement project recently completed in Dublin canyon, directors of the Hayward Chamber of Commerce yesterday adopted a resolution protesting against the proposed rerouting of the Lincoln highway through Fairfield and over Carquinez bridge.

The resolution was mailed to the Lodi and Stockton chambers of Commerce, which are heading the opposition movement. The change would prove a real economic blow to Hayward and other parts of the bay area. It was pointed out by the directors.

The new bay span will depend partially on the Lincoln highway to make it a paying venture, while the Dublin canyon highway, it is urged, will be deprived of its value if the transcontinental route is changed.

PREDICTION OF NET TITLE IS REALIZED

By HARRY FERGUSON
United Press Staff Correspondent

Five years ago René Lacoste walked up to his father and said: "Let me play tennis for five years. I will become champion of the world and then quit and devote myself to business."

He did. And now Lacoste has said he will keep the promise he made back in 1923. He does not intend to come to the United States to defend his national singles championship.

His defeat by Big Bill Tilden last week in Davis Cup play may cause him to change his mind, however. If Lacoste were still on top of the heap, he would be more inclined to abandon his crown. But in the face of Tilden's triumph, such an act is doubtful.

Lacoste is not a gallery player. He is totally lacking in that elusive stuff called color, for he makes the most difficult shots seem ridiculously easy. He is the most perfect approach to the perfect mechanical tennis player the world has ever seen.

On the court he seems to be made of springs and steel. Short, swarthy, wiry, he skims across the court like an automatic doll. His facial expression never alters. He has even more of a poker face than Helen Willis.

Faultless baseline play is the secret of Lacoste's success. There is none of Cret's beautiful wrist work in Lacoste's game; none of Borotra's furious forays to the net. At time Lacoste appears awkward when making a return, but the ball always streaks back over the net, usually to nick the baseline for a point.

Lacoste broke the stout heart of Tilden in the finals of the National tournament last year. Twice the American was within one point of winning a set when Lacoste sent the ball past him like a rocket. Each time the ball splashed squarely into the white line of the sideline. Tilden never had a chance after that. The psychological effect of Lacoste's stolid, consistent game is a powerful fac-

RESULTS OF OLYMPIC SHOW U. S. SUPREMACY IS FADING

By FRANK GETTY
(United Press Sports Editor)

AMSTERDAM, Aug. 2.—(U.P.)—The fifth day of Olympic track and field competition today furnished striking evidence of the depressing fact that the American domination of international sport is definitely at an end.

Sweden, Finland, Germany and Japan shared first honors in four events—hop, step and jump, 1,500 metres, javelin throw, and the women's 800 metres, whereas the best Americans could get was second place in the hop, step and jump and a sixth place in the women's 800 metres.

Beyond those two places, the foreigners commanded all the Olympic salutes of victory today.

The Americans were completely swamped in the 1,500 metres, won by Harry Larva, Nurmi-like young Finn, and the javelin throw, won by E. H. Lundquist, broad shouldered blonde Viking.

In winning the 1,500 metres, Larva, only 20, set a new Olympic record of 3 minutes, 53.2 seconds. The former record of 3:53.6 was made by Paavo Nurmi in the 1924 games at Paris.

Ray Conner, slim, blond Iowa, who was America's only hope in the 1,500 metres, never could get for in his victories. Opponents begin to feel that they are battling against a machine and that their cause is hopeless.

McLarnin Wins From Loayza By 4 Round K. O.

DETROIT, Aug. 2.—(U.P.)—Jimmy McLarnin showed tonight he could mix his punches by knocking out Stanislaus Loayza, who has been clearing up some of the best light weights.

The victory came in the middle of the fourth round after Jimmy had opened up an old wound over Stan's left eye. Up to the second round when McLarnin apparently was running for range, the fight was even.

The break came soon after the start of the third round when a series of rights from McLarnin weakened Stan and sent him to his corner in trouble.

"Gin Marriage Law" Is Assailed By License Bureau

LOS ANGELES, Aug. 2.—(U.P.)—Judicial opinion today strongly favored the California "gin marriage law," but Rosamund Rice, in charge of the marriage license bureau described it as a failure.

The law will have been in effect one year Saturday.

Records for licenses in the state and in neighboring states show that many persons have gone beyond the borders of California to be married rather than wait the necessary three days under the state law.

County clerk L. E. Hampton said: "Generally speaking, it is a good law and I am strongly in favor of it. It will be a better and more effective law when other states have followed California's example."

"The new law is a nuisance," according to Miss Rice, and it "drives many minors to Tia Juana and thereby defeats its great object."

She added "When people set their minds on getting married, they are going to win out."

Judge Montgomery, presiding in domestic relations court, said: "It is an improvement on former conditions, but I would increase the time to ten days. I would also make it a national law if possible, just as I strongly favor national divorce laws."

Other jurists were equally enthusiastic over the law at the close of a year's trial.

LOOP LEADERS KEEP VANTAGE BY VICTORIES

SAN FRANCISCO, Aug. 2.—Hollywood, Sacramento and the Seals, three leaders of the Pacific Coast league kept their advantage with wins today.

Hollywood, league leader, took its third straight game from the Missions, 7 to 6. Four runs in the first inning gave the Stars the vantage which enabled them to win although the Missions outscored them during the last part of the game.

Sacramento kept one game ahead of the Seals by defeating Oakland 5 to 2. The Senators made only four hits to nine for the Oaks but three errors by Oak players helped the Solons.

Four runs behind Los Angeles at the end of the first half of the fifth San Francisco Seals scored five times and won 10 to 9. The Stars scored twice in the fifth.

Portland, 10th place, held Portland to three hits and scored 4 hits to win 4 to 2. The Seals were able to put away more than one run in any of the innings.

"Cleans as it Polishes"

What's become of all the homely women?

WOMEN simply aren't homely any more. You meet plain women, yes... but their smart, trim air is the envy of many who are only beautiful.

In the old days, when a girl gave promise of becoming "hopelessly plain," she was frankly informed of the fact to save her from hurt pride in later years. She remained frumpy and tried to convince herself that she didn't care!

Not today!

Advertising has played a remarkable part in making every woman attractive.

It has taught her to use the beauty and charm that are her heritage, regardless of the shape of her features. Her teeth, her hair, her hands, her complexion, her clothes, and even her erect, athletic figure have been "brought out" by methods constantly before her in advertising.

The great beauty and style specialists of the country have been her consultants, as they are yours, if you are taking fullest advantage of the opportunities before you every day, in the advertising columns of this newspaper.

Read the advertisements. They hold secrets of beauty and style that were denied the women of yesterday

NOBILE SENDS CHALLENGE TO HIS CRITICS

ROME, Aug. 2.—(U.P.)—General Umberto Nobile, rescued from the Arctic ice and now back in his home at Rome, today voiced a defiant challenge against any attempt to discredit the scientific value of his expedition over the north pole in the dirigible Italia. Nobile uttered this challenge in an exclusive interview with the United Press correspondent, the first interview he has given.

"Our expedition was worth all the suffering and sacrifices," Nobile asserted. "In the wealth of geographical and scientific research which it will give to the world. No Polar expedition in history has accomplished so much scientifically as ours."

The general appeared to be buoyant, and in a proud haughty spirit. He was ready to defend the conduct of the entire expedition which cost the lives of at least two of his comrades and left in doubt the fate of the group of six men carried off in the envelope of the dirigible. Others whose fate is not known are Rabld Amundsen, noted Norwegian polar explorer, Lieut. Lief Dietrichsen, Norwegian Arctic explorer and the four members of the crew of the French airplane in which Amundsen and Dietrichsen set out from Tromsø Norway on June 18 to rescue some of the Italia crew. The plane and its crew have not been heard of since and the icy north may forever hold the secret of their fate to itself.

"It has not been said that we flew a total of 248 hours of which 134 were over the polar regions," the general declared, rising to emphasize his defiance of his critics. "It has not been said that we encountered meteorological conditions and difficulties that tested the fibre of every man of us. We overcame a thousand difficulties and yet if we could have continued three hours more our expedition would have been complete."

Rockford, Stockholm Plane Crashes

WHEN BERT HASSELL of Rockford, Ill., and Parker Cramer took off in their plane, the Greater Rockford, on a proposed flight to Stockholm, Sweden, via Greenland, their plane crashed within half an hour. Photo shows view of wrecked plane.

BRITISH ACE, CREW SAVED

(Continued from Page 1)

27 minutes north, 39 degrees, five minutes west.

A little later the master of the liner Celtic radioed the United Press a similar report.

It was not until 9 p. m. that the report came direct from the Minnewaska that the rescue had been effected and all aboard were well.

It was not known what caused the "Whale," which was a craft considered both highly air-worthy and seaworthy, to come down.

The position where the rescue was effected was 605 miles from Horta, Azores, and was 275 miles northwest of the spot where Commander De Pinedo, famous Italian aviator, was picked up when his Santa Maria II came down while enroute from Newfoundland to the Azores last year.

The sea, at the time of the rescue, was reported as calm and the wind almost negligible—it having been reported earlier in the day that the breeze was but three miles an hour.

Theosophists Hold Meeting Urging Peace

BRUSSELS, Aug. 2.—(U.P.)—Theosophists gathered here today for the opening of the Ninth European Congress of the Theosophical society.

Delegates from 25 European countries were welcomed by Dr. Annie Besant, the president of the society, in the Palais des Beaux Arts where the meetings are being held.

Besides the official delegates, thousands of Theosophists from all the countries of Europe and from America were present to hear Dr. Besant's lectures and attend the open meeting of the congress.

Kishnamurti, the "World Teacher" also was at hand.

The keynote of the congress, the first general meeting of which will be held at 8 o'clock tomorrow evening is world peace. It is understood that Kellogg Note will be fully discussed at the daily meetings and it is anticipated that the society will endorse the note.

Other aspects of world peace which are scheduled to come up for discussion are substitution of understanding for force and the necessity of securing and maintaining sympathetic relations between the white races and the various colored branches of humanity.

Dr. Besant was 80 years old last October and is accounted one of the busiest and most energetic women of her age. Besides her constant routine work in connection with Theosophy, she finds time to write countless pamphlets and notes. Whenever possible, she travels by air in order, she declares, to "save time, for work."

Scouts Camping In Dardinells
A group of Boy Scouts from Richmond and the country are camping in the Dardinells, a wilderness with practically no trails and very seldom penetrated by man. The scouts have been engaged in cutting a trail into the heart of the country.

The group left last Thursday, making the first over-night stop at Hyland creek, one of the best fishing streams in the state. The boys are doing their own cooking. Several previous hikes had been taken to harden the scouts to this hike.

J. R. Warne and Scout Executive Cox were in charge of the hike.

The scouts will arrive in Richmond late Saturday afternoon.

CORRECTION
Through an error yesterday the name of John A. Sabral, 38, El Cerrito, was published as a defendant arraigned before Justice Frank Glass on a charge of contributing to the delinquency of his 15 year old daughter. The defendant is Paul Fabri, 38, an El Cerrito resident, who, unable to raise bail of \$1000, is being held in the county jail awaiting trial.
